# Mohamed Hemdan Abd El Rahman

<u>Personal</u> <u>Information:</u>

Nationality: Egyptian.   Date of Birth: July 20th, 1994.
Address: Nasr city, Cairo
E-mail address: mohamedhemdan415@gmail.com   Mobile: +201119692539

Objective

To leverage my 5+ years of professional experience in front-end development using React.js and Next.js—alongside strong skills in UI/UX design, REST API integration, and asynchronous request handling—to create fast, scalable, and user-friendly web applications. Seeking to contribute to a forward-thinking team that values innovation, performance, and design excellence.

Skills Summary

- More than 6 years of experience in developing 35+ websites using HTML , CSS , JS, ES6 , JQuery , Bootstrap, Tailwind css , Material UI & Building SEO friendly , clean , optimized , re-usable , responsive designs for all devices from Sketches (Adobe XD – Figma – Photoshop - illustrator) Pixel Perfect.
- +5 Years of experience in React Js , Next Js.
- Expertise in component-based architecture, state management (Redux, Redux Saga, Context API), and styling frameworks like TailwindCSS, SASS, Bootstrap, and CSS Modules.
- Familiar with code-splitting, lazy loading, and other performance optimization techniques in modern front-end development.
- Experienced in RESTful API integration, asynchronous request handling with Axios, Fetch, and React Query, and secure data flow management.
- Selecting and deploying appropriate CI/CD tools.
- Solid understanding of UI/UX design principles, with hands-on experience translating Figma designs into responsive, accessible, and pixel-perfect UIs.
- Skilled in Figma for wireframing, prototyping, and collaborating with design and product teams for seamless handoff.
- Experienced in implementing SEO best practices, including semantic HTML, meta tags, structured data (JSON-LD), clean URLs, and performance optimizations.
- Experience in ticketing system like Jira & Trello to manage the daily tasks and tickets and pull requests.
- Enthusiastic team player with a problem-solving mindset, experienced in Agile/Scrum environments, version control with Git, and delivering results on time.
- problem-solving, and time-management skills.
- Excellent Problem-solving and debugging skills
- Experience in Git, bitbucket & Azure devops.

Work Experiences

1- **Company Name: Blackstone**
   Company Location: Cairo, Egypt
   Position: Senior Frontend Developer - (Hybrid)   (07/2024 – Present)
   Accomplishments:

   1. Converting Figma mockups into reusable, animated, pixel perfect components

   2. Fix SEO Issues and meta tags to give best result for Google Page speed test.

   3. Test Performance website and giving the best practices for code to improve the usability of website.

   4. Implementing Front End architecture to support user interface concepts.

   5. Adding new features and Reviewing application to meet the user requirements and interface designs.

   6. Responsible for translating and managing the content.

   Tools: Git, Microsoft Azure

   Description: Online shop for Designing and printing products (Business cards – Banners- flyers …etc) built withMagento system ,Edit content & Add Products from Dashboard.
   Tools: Front End development (HTML5 - CSS3 - JS - JQ). Magento dashboard
   Link: https://www.printpersona.com/   (the client closed the website for now)

5- Project Name: Al-nada mills

Description: Represent (categories – products – portfolio – company timeline ...etc.) of the company

Tools: Front End development (HTML5 - CSS3 - JS - JQ - JSON - Ajax).

Link:http://alnadamills.com/

6- Project Name: Al-monairy corn

Description: Represent (categories – products – portfolio – company timeline ...etc.) of the company**Tools**: Front End development (HTML5 - CSS3 - JS – JQ- Bootstrap - JSON - Ajax).

Link: https://olivelandeg.com/

7- Project Name: Elmonairy group

Description: Represent (services – portfolio – company timeline ...etc.) of the company**Tools**: Front End development (HTML5 - CSS3 - SASS - JS - JQ - JSON - Ajax).**Link**: https://almonairycorn.com/

8- Project Name: Tekegy

Description: Represent (services – portfolio – company timeline ...etc.) of the company**Tools**: Front End development (HTML5 - CSS3 - SASS - JS - JQ - JSON - Ajax).**Link**: http://tekegy.com/

9-Project Name: B-HUB

Description: Represent (services – portfolio – company timeline ...etc.) of the company**Tools**: Front End development (HTML5 - CSS3 - SASS - JS - JQ - JSON - Ajax).**Link**: http://theb-hub.com/

10-Project Name: Olamarine

Description: Represent products and fishing equipment of international company located in Cairo & Hurgada

Tools: Front End development (HTML5 - CSS3 - SASS - JS - JQ - JSON - Ajax).

Link: http://olamarine.com/

11-Project Name: Mi-asset

Description: An RTL website that represent (services – portfolio – company timeline ...etc.) of the company.**Tools**: Front End development (HTML5 - CSS3 - SASS - JS - JQ - JSON - Ajax).

Link: http://mi- asset.com/

12-Project Name: Oper8ly

Description: An RTL website that represent (services – portfolio – company timeline ...etc.) of the company.**Tools**: Front End development (HTML5 - CSS3 - SASS - JS - JQ - JSON - Ajax).
 Link: http://oper8ly.com/

13-Project Name: Facilities

Description: An RTL website that represent (services – portfolio – company timeline ...etc.) of the company.

Tools: Front End development (HTML5 - CSS3 - SASS - JS - JQ - JSON - Ajax).
 Link: http://facilities-eg.com/

 14-Project Name: AGC-Group

Description: Web Site contains the services of the company, portfolio, package prices, projects, Contactus and map

Tools: Front-End web Development (HTML5 - CSS3 - SASS - JS - JQ - Bootstrap). **Link**:https://agc-groups.com/

15-Project Name: CV Shots.

 Description: Video about yourself like Introduce yourself and the employers could search and hire youfaster than past.
Including the job seekers and employers in only one place like (WAZZUF – BAYT... etc.)
 Tools: Front & Back End web development (HTML5 - CSS3 - SASS - JS -JQ
 - Bootstrap).
 Link: https://www.cvshots.com/

16-Poject Name: El Ektsad welbnok

 Description: An RTL website that represent (services – portfolio – company timeline ...etc.) of the company.

Tools: Front End development (HTML5 - CSS3 - SASS - JS - JQ - JSON - Ajax).
 Link: http://elektsadwelbnooknews.com/

17-Project Name: Bosla News

 Description: RTL News website that represent (services – portfolio – company timeline ...etc.) of the company.

Tools: Front End development (HTML5 - CSS3 - SASS - JS - JQ - JSON - Ajax).
 Link: http://alboslanews.com/

Systems Proficiency

Extra knowledge Programming Languages

 knowledge in PHP , NodeJs

Database

Knowledgeable in database design, System analysis and diagrams, development MYSQL (PHP Myadmin)

Operating Systems

Expert in working with Microsoft Windows Platforms.

Achievements

1. **Top Tech Performance Award** (August 2022)

2. **Certified Web Designer** (March 2022)

Education

 Faculty of Computer and Informatics, El-Shorouk Academy (2012-2016)
B.Sc. Computer Science
Graduation project: Q-Team Management system.
Grade: Excellent.
Description: Organize the daily Tasks and work activities, include the employees, departmentmanagers, and admins in one place.

Languages

Arabic: mother tongue.
English: very good. Speaking, Writing and Reading

Courses

☐ **Front End Program Certification of Completion (Score 98%)   -NTI**   (2022)
☐ **Full Stack web Development   - IDE Academy**   (2018)
☐ **English Pronunciation   - El-Shorouk Academy**   (2015)
☐ **Web Design Diploma   - Fusion VFX Academy**   (2014)
☐ **C# Programming   - New Horizons**   (2013)
